

Fusion / Toscano

PRODUCT DATA SHEET

Fusion / Toscano

Description

Neolith Toscano captures the essence of Italy's noble stone and translates it into a range of on-trend earth and brown tones. Its warm, enveloping chromatic richness infuses personality, evoking Mediterranean landscapes and living matter. A design of balance and depth, created for spaces that seek serene, enduring beauty.

Finishes

Thickness

Riverwashed

3mm
6mm
12mm

Recommendations for use based on the thickness

3mm

Recommended for all types of vertical cladding: walls, furniture and cupboards.

6mm

The most versatile thickness. It can be used for interior and exterior wall and floor applications. It is also suitable for other uses such as furniture. The special finishes Rigato and Cava, available in selected models, are recommended only for interior and exterior vertical wall applications due to their distinctive texture.

12mm

The recommended thickness for tables and countertops in kitchens and bathrooms.

For more information on the thickness indicated for each finish, check with your professional.
